

# BioMed Online Short Courses in Microbiology

BioMed Online offer the following short courses in microbiology:

- Antibiotics
- Management of Healthcare Associated Infection
- Medical Mycology
- Parasitology
- Sexually Transmitted Diseases (*coming soon*)

We also offer these additional courses which will be of benefit to healthcare professionals working in the microbiology field:

- Analysis of Nucleic Acids
- Clinical Data Interpretation
- Governance and Risk Management
- Healthcare Law and Ethics
- Immunocytochemistry in Diagnostic Cellular Pathology
- Point of Care Testing
- Quality Systems Management

For our full range of courses, see [www.biomedonline.co.uk](http://www.biomedonline.co.uk)

You can study these courses individually for your continuing professional development (CPD) or follow a specific pathway to work towards a postgraduate award (PGCert / PGDip / MSc) in Biomedical Science (Online) or Healthcare Management.

Each 12-week online course is tailored to meet workplace needs and comes with full support from an experienced practitioner who has been trained by us to support students online, with a typical tutor: student ratio of 1:10. The courses have been created by NHS Trusts, Pathology Joint Ventures, the UK Health Security Agency and the University of Greenwich, and are approved by the Institute of Biomedical Science (IBMS).
